PART 1: LIVING IN ITALY

COST OF LIVING

Living costs and spending habits will differ considerably depending on your individual expectations and needs and, of course, on where you live, so it's not easy to give advice that is suitable to everyone.

First of all, you will need cash availability for travel, food and other expenses immediately upon arrival in Italy.

Consider an amount of about €200-250 cash to cover immediate needs. Carefully plan how and when to exchange your currency to get the best exchange rate. It is not advisable to bring larger amounts of cash unless you're sure you'll need it.

Take precautions with money, documents and luggage, when travelling or using public transport.

To avoid thefts and being pickpocketed, keep valuables and important belongings close to your body.

Before your arrival, plan your budget as carefully as possible and try to figure out if you can meet all the expenses, even considering unexpected and emergency costs.

Below is a list of possible future expenses you may face for reference, please check :

HOW TO OPEN A **BANK** ACCOUNT

POLICARD (Ateneo +)

Within a few weeks from enrolment your Policard will be available.

PART 2: LIVING @ POLIMI

WELCOME SERVICES AND EVENTS

Offices working with international students usually organize welcome and orientation events to help students with administrative matters: getting a tax code (codice fiscale), applying for a residence permit and a health insurance, paying tuition fees, enrolling, etc.

The events also illustrate the various services you can take advantage of during your studies.

We strongly recommend attending these events in order to receive support and learn more about university life and key procedures like the study plan and academic deadlines.

Therefore we invite you to arrive in Milan in time to attend these welcome activities, which are usually held at the end of September.

INTERNATIONAL STUDENTS OFFICE FOR BACHELOR AND MASTER OF SCIENCE STUDIES

Before and after your arrival, the **International Students Office** will support you in organizing your arrival and your stay.

The office provides information concerning accommodation, stay permits, health insurance and initial general administrative issues.

OFFICIAL ENROLLMENT - INTERNATIONAL STUDENTS

If you have a credit card, you can enroll by yourself wherever you are through www.polimi.it, **Servizi Online**. If you do not have a credit card, you will need to enroll from Italy, and pay the first instalment of the tuition fees through a payment bulletin which is downloadable online or available at your office of reference.

To avoid confusion and delays, make sure your name is exactly the same on all university and other institutional documents.

According to the deadlines set for the current academic year, please provide the following documents to the International Students Office of your Campus:

For **Bachelor of Science** Programs.

In order to complete the enrolment procedures you need to prepare the following documents in the country where the educational system of the school issuing your diploma belongs to (for example: for a school with British educational system in Peruvian territory the authorities of reference are those of the UK).

You will then consign the original documents upon official enrolment.

1. Final diploma of secondary studies (at least 12 years): accompanied by an official translation in Italian language.
2. “Declaration of value” (Dichiarazione di Valore): **issued by the Italian Diplomatic Representative** related to the high school degree. The Declaration of Value is a document, released by the Italian competent Authority in the Country to which the educational system of your school refers, attesting the validity of your Diploma and in particular attesting you are entitled to enter University.
3. a certificate proving the completion of one or two years of academic studies or a post-secondary title: in case of countries where the educational system lasts only 11 or 10 years: confirming the examinations passed and translated into Italian if not issued by the university directly in English, French or Spanish.
4. a certificate attesting that the University entrance examination in the country of origin has been passed.
5. only for Laurea (equivalent to Bachelor of Science) courses held in English: a valid English language certificate

Documents at point 1, 3 and 4 must be duly apostilled (only if the country where the diploma has been achieved is part of the Hague Convention abolishing requirement for legalization of foreign public documents). Apostilles authenticate the seals and signatures of officials on public documents, so that they can be recognized in foreign countries that are parties of the Convention.

If your country has not signed the Hague Convention, **documents at point 1, 3 and 4 must be legalized by the Italian Diplomatic representatives.**

If students have been studying for some years in another foreign institution and would like to have their previous academic career recognized, they can ask for the validation of the examinations taken. In this case, in addition to the documents above mentioned, the students must submit:

- **an academic transcript**

An academic transcript certified by the university registrar’s office and legalized/apostilled, confirming the courses taken, grades received and the relation of credits given to number of hours for each course. Please note that this document will be accepted in **Italian, English, French or Spanish**. For all other languages, a legalized translation into Italian must be provided together with the original version.

- **a detailed study programme description**

Brief course descriptions explaining the content and the basic topics covered in each course, and the number of hours for each course/training activity in the academic curriculum that the candidate has completed. The document should be on university letterhead or stamped by the university from which the student has earned the degree. Politecnico di Milano DOES NOT require the translation of detailed study programmes if written in English, French or Spanish.

Alternatively to transcripts and course descriptions, a **diploma supplement** can be produced, if adopted.

For Master of Science Programmes:

1. Final university degree accompanied by an official translation in Italian language.

2. “Declaration of value” (Dichiarazione di Valore): **issued by the Italian Diplomatic Representative** related to the bachelor degree. The Declaration of Value is a document, released by the Italian competent Authority in the Country to which the educational system of your university refers, attesting the validity of your degree.

3. **academic transcripts**: An academic transcript certified by the university registrar’s office and legalized/apostilled, confirming the courses taken, grades received and the relation of credits given to number of hours for each course. Please note that this document will be accepted in Italian, **English, French or Spanish**. For all other languages, a legalized translation into Italian must be provided together with the original version.

4. A valid English language certificate and an Italian language certificate for courses held in Italian language

Documents at point 1 and 3 must be duly apostilled (only if the country where the diploma has been achieved is part of the Hague Convention abolishing requirement for legalization of foreign public documents). Apostilles authenticate the seals and signatures of officials on public documents, so that they can be recognized in foreign countries that are parties of the Convention.

If your country has not signed the Hague Convention, **documents at point 1 and 3 must be legalized by the Italian Diplomatic representatives**.

Please consider that pursuant to Article 39, paragraph 5 of Legislative Decree no. 286 of 25 July 1998, as modified by Article 26 of Law no. 189 of 30 July 2002, the “Law modification regarding immigration and asylum,” “students from abroad possessing a residence permit or a subordinate or autonomous work permit, for family reasons, for political asylum, for humanitarian asylum, for religious reasons, or for foreigners residing for at least one year and possessing a diploma of secondary studies awarded in Italy” can access university under the **same conditions as all European citizens**.

POLICARD (ATENEO +)

Within a few weeks from enrolment, your Policard will be available for you to collect at the front desk of the Register’s office: an email will be sent to your institutional email address to inform you once the Policard is ready to be collected. The card allows you to access the services of the Politecnico di Milano (entry to IT rooms and reading halls, payment of fees, refunds etc). While you are waiting for your Policard, you can access the libraries by showing surveillance staff the enrolment receipt and ID document (or a certificate of attendance)

Before using the Policard, you must activate it by entering the specific function on the Online Services www.polimi.it/online-services in the “Dati” section > Tesserino Policard (Policard card) - attivazione (activation), visualizzazione stato (display status), prenotazione (booking) riemissione (submittal). The procedure need to be completed just once.

Policard (Ateneo +) can be used:

- As a “university card” to access public Politecnico areas such as laboratories, libraries, classrooms, canteens, reserved areas, conferences and events and services such as logical internet access or online services provided for students.

- “Top-up prepaid card”, on which any refunds and benefits paid by the Student Aid of the Politecnico di Milano will be credited .

- As a card to make payments and cash withdrawals in Italy and abroad, and carry out some typical bank account transactions: make and receive bank transfers, pay bills. To activate the card you must go to any branch of Banca Popolare di Sondrio with your ID card or tax number or passport. No top-up is needed on the card for this function. Further details are given on the Banca Popolare di Sondrio page in the section Ateneo + card (www.popso.it/ateneopiu).

- “contactless payment card”, for purchases in the stores that have installed this system (limits apply).

The Policard (Ateneo +) does not have a photograph, which means it is not a valid identification document and is not proof of enrolment at the Politecnico di Milano.

PRIVACY RULES

Politecnico is not permitted to release information regarding academic progress or attendance to any third party without the student’s express consent.

} IN ORDER TO COMPLY WITH ITALIAN DATA PROTECTION LAWS, PLEASE REMEMBER TO CONTACT US USING YOUR POLITECNICO WEBMAIL ACCOUNT AND NOT A GENERIC EMAIL ADDRESS. }

This will ensure that only someone with a person code and password can access your Online Services and read your e-mail inbox. If you are not enrolled yet and wish to write us, remember to attach a scan of your passport or ID, together with your person code (Codice Persona), if already issued. If these rules are not observed, only general information may be provided in order to protect your privacy.

CERTIFICATES AND SELF-CERTIFICATES

Any information relating to your academic career can be found on Online Services, under the “Didattica” or “Esami” sections, by logging in with your person code and password.

All students can print self-certificates regarding enrolment, career, exams passed and so on from the Online Services, under the “Data” section. Self-certificates can be addressed to public offices in Italy or to private enterprises in charge of public services.

The Registrar’s Office release certificates that are subject to the payment of an amount that may vary according to the number of certificates and to the reason for which you require them.

To obtain a **certificate on stamped paper**:

- **complete the form** requesting a certificate on stamped paper (available at www.polimi.it -> studenti -> modulistica);
- **buy one revenue stamp €16.00, to be placed on the form;**
- **buy one revenue stamp €16.00 for each certificate requested.**

For example, if you need two certificates, you’ll need to buy three revenue stamps: one for the form and one for each certificate requested.

If your **tuition fees** haven’t been paid, you won’t be allowed to obtain any certificates and the exams you’ve passed won’t be registered until you have settled your tuition fees.

Since it is not possible to pay the revenue stamp duties from abroad, please don’t forget to request all of the necessary certificates before you leave Italy and once you have finished your studies. If you do leave the country, you’ll need to delegate a friend or a colleague living in Italy to make the request on your behalf.

In this case, and every time you need someone to hand in a request that you cannot submit in person, you will need to fill in a **delegation form** (available at www.polimi.it -> studenti -> modulistica); enclosing a photocopy of your ID. The delegated person must also provide his/her ID.

Certificates are available in Italian and English.

HOW TO SURVIVE UNIVERSITY LIFE

Check the Academic Calendar:

It highlights important dates and is useful for managing your studies during the first semester lectures (usually from mid-September to the end of January) and the second semester lectures (from the beginning of March to the end of June).

Most examinations take place during the non-lecture periods.

<http://www.polimi.it/corsi/calendario-lezioni-esami/>

Connect with students in your classes:

During the first weeks of classes do your best to get to know your classmates in each of the classes you attend. Besides expanding your network of friends, you will have help if you miss a class.

Remember to sign up for exams and workshops.

It is extremely important that you sign up for exams correctly and within the established deadline, otherwise you will not be allowed to take the exam and your grade will not be recorded in the transcript of records.

On Servizi Online, under the "Exams" section you'll find the deadlines and the links to follow. Make sure you:

- are up-to-date with your tuition fee payment;
- have added the exam you want to sit to your study plan;
- have checked the rules on the priorities to be given to certain exams;
- have attended the lectures when required;
- have completed the sign-up procedure.

Try to pass your OFA test as soon as possible

OFA is a gap found in your initial preparation that emerges during your entrance test and indicates certain limitations to your career. There are different kinds of OFAs depending on the course you're enrolled in (OFA disegno, Ofa matematica, Ofa Tol, Ofa Test, Ofa inglese called TENG ...). You will be able to retrieve your OFA during the academic year starting from October and apply to an OFA session from your Webpoliself area by following these links: "Ammissione alla Laurea Triennale" > "Iscrizione recuperi Ofa"

...and last, but not least, some safety tips:

- Mark laptop, mobiles and other electronic equipment with personal identification markings
- Do not carry large amounts of cash with you when going to University
- Do not leave personal belongings unattended
- Use the school lockers to store your items during a break or when having lunch (book your locker online: The service is reachable on the Online Services, "Data" section)
